

# Metehan Günaydın

## About Me

I'm a passionate software developer studying Information Systems and Technologies at Mehmet Akif Ersoy University. I actively work on full-stack web projects using technologies such as Next.js, React, Tailwind CSS, and Node.js. With a strong interest in modern UI/UX design and clean code practices, I continuously improve my skills through freelance projects, open-source contributions, and self-learning via platforms like GitHub. My main focus areas include web development, cybersecurity, and building useful tools for real-world problems.

## Projects & Experience

- Portfolio Website: Built a personal portfolio using Next.js, Tailwind CSS, and ShadCN.
- Freelance Projects: Delivered web solutions for clients in hotel and tailor industries.
- Open Source: Actively contribute to GitHub with UI components and full-stack applications.

## Education
